EXPERIENCE

K&A Meats LLC — Meat Packager

July 2022 - PRESENT

- Processed and packaged meat products while ensuring accurate labeling and quality standards.
- Operated and maintained packaging equipment safely and efficiently.
- Cleaned and sanitized equipment and work areas to meet health and safety regulations.
- Worked with the team to maintain a safe, organized environment and meet production goals.

Jake Kraus — Freelance Developer

January 2022 - January 2025

- Designed and implemented a custom appointment scheduling system for equine farrier services, streamlining business operations
- Collaborated closely with stakeholders to gather requirements and iterate on features, ensuring optimal user experience for multiple use cases
- Architected and developed maintainable, production-grade code following software engineering best practices

Ordinal — *Data Specialist*

November 2022 - August 2023

- Tagged and organized resume data for better search and matching.
- Automated tagging to save time and reduce manual work.
- Standardized tags for consistent tracking of skills and experience.

EDUCATION

Washington University — *Fullstack Development Certificate*

July 2024 - January 2025

Learned how to develop the front and back ends of professional web applications, and how to develop and interact with databases.

Pacific High School, 425 Indian Warpath Dr, Pacific, MO —
High School Diploma
